Monday last Johnny did not go to school, at least his teacher wrote to Johnny's mother and stated that the lad had played truant, and so when Johnny came marching home there was a warmth in the reception awaiting him that was unusual. "And you hath the quickened who were dead in trespasses and in sin" is an epi-tome of the dectrine of spiritual death and spiritual resurrection. THE BODY AND SOUL.

Two great resurrections—that of the body and that of the soul. The death-lessness of conscious personal identity; the preservation through the cycles of eternity of that identity in a spiritual and glorified corporeality and the deliverance of the soul from the bondage of corruption into the glorious liberty of righteousness through faith in the name of Him who hath wrought out this wonderful salvation. Bodily resurrection is unconditional. Soul or apiritual resurrection is conditioned not upon personal merit, but upon a personal accentance of Jesus as Lord, Redeemer, and Savior—an absolute surrender of the will and affection to Him as Lord of one's life. SECRETARY WILSON LOOKING TO

Plans of His Department-Efforts to In troduce New Food for Cattle. The Scientific Crops.

Secretary of Agriculture Wilson has introduced a new policy in the distribution of seed.

As this work was under way when he took charge of the department, it has not been possible for him to do more this spring than to make a beginning of the

uable seed as far as possible with a view of diversifying the products of the farms of the country.

In the distribution of seeds the Secretary's efforts are now bent upon furnishing the farmers in the northwest, where land and climate is best adapted for the cultivation of sugar beets, with choice beet seed, and this spring, for the first time, the farmers who desire to raise a that was unusual.
So the whipping came and both Johnny and his mother regretted it very much, but it had to be done, and as Johnny was not very contrite he was promised another on Tuesday, but alas when Tuesday came Johnny was gone.

MONEY IN BEETS.

"As this country is importing \$100,000,000 worth of sugar per annum," said Secre-tary Wilson to a Star reporter yester-day, "it seems to me the cultivation of the sugar beet is a very important mat-ter. The soil of the northwest is parmother's eyes he was attired in a suit of blue clothes. Mrs. Bolton is strongly of the opinion that her son is being given aid, comfort and succor by some of his numerous friends, and she is liable to make it very warm for anybody who keeps Johnny ter. The soil of the northwest is par-ticularly well adapted, as is the climate, to this production, the beets in some cases yielding as high as 20 per cent. of sugar. In France the yield is but a lit-tle higher than 13 per cent.

"We are now obliged to import beet seed from abroad, as the seed men of this country are not able to supply us with large quantities of the best seed of this kind. from the hearth and home of his anxious Mrs. Bolton would be grateful for any

This action is known in the Code of Virginia as "Mayhem," and is a felony, so if Payne is convicted he will go to the nenitentiary. This is no light task, and of course it will hardly be possible for the head of the Department of Agriculture to carry it out fully within the four years of a single administration. But it is proposed to make a start, and it is likely that wherever a valuable plant that can be made of use to the farmer is shown to grow well under certain conditions of soil and climate the Department will use its efforts to spread that particular plant in every part of the country where simits efforts to spread that particular plant in every part of the country where similar conditions of soil and climate are found to exist. This method will revolutionize the principle on which the distribution of seed has been smade in the past.
